Recommendations:

- *Panelled Walls* - picture frame moulding in three vertical panel finish (like inspiration image).
- *Walls painted lighter than existing shade* (paint should continue up to the tray ceiling, and stop where the wall meets the hallway).
- *Painted ceiling* - pale blue (see inspiration image).
- *Lighting should incorporate sparkle* - this is the "Gold Watch" in the room - recommend crystal or brass/crystal with coordinating (but not matching) sconces.
- *Upholstered chairs for less formality and greater comfort* (for 'long slow dinners'). Consider nail head detail.
- *Rectangular Extension table either with pedestal base or 4 legs* (not too formal, fussy or 'chunky', unless it's a pedestal, in which case 'chunky' is appropriate for the base).
- *Sideboard/China cabinet to coordinate* (not match) - consider incorporating brass in the glass of china cabinet to tie in lighting
- *Dhurrie rug in a lattice/trellis pattern* would be more relaxed than a Persian/oriental and would be a good contrast to the formality of the paneling (consider cream background with beige/taupe/grey pattern)
- *Drapery: 4 panels in subtle paisley* with beige, blue, cream, grey with a navy blue band on inside and bottom edge.
- *Idea for art would be architectural drawings/renderings* (hang facing sideboard/china cabinet between sconces - see inspiration image).
- *Hang round mirror above existing bow front.*
